

Bavarian Castles Tour, June 2010

June 2010 brought myself and my family to one of the most enchanting and wonderful places in the world. We traveled to the magnificent Bavarian Alps and enjoyed the fresh mountain air, the beauty of the lakes, and toured some of the most interesting castles ever build including Neuschwanstein and Linderhof Castles. We were aptly hosted and accommodated by European Castles Tours which we selected from the website because we liked the sense of personal and private attention that the tour director, Astrid Baur, was willing to give to us even during the booking phase.

We felt at home in the Landhaus, the meals were the best of local fare served in good solid (non tourist) restaurants, the days and evenings were filled with picturesque beauty. We were well accommodated and cared for while traveling with a wide range of ages. We also had the bonus of having Astrid's associate, Bridgette, as our daily tour director. Both of these women are knowledgeable, friendly and caring and we found this tour to be far, far better than any other tour group that we have traveled with in the past.

Go and enjoy the mountains, lakes and castles, but most of all enjoy being in the capable and caring hands of this personal, wonderful tour group.
